"DROVER'S" BRANDS

** Cast from a high technology, industrial bronze. This material has similar strengths to stainless steel while being more thermally efficient and more resistant to corrosion.

** All "DROVER'S" brands have an attractive, hardwood handgrip to protect the user's hands from temperature extremes and to assist in the positive placement of the brand.

** "DROVER'S" Fire brands are designed to be easily converted for use as a gas fired brand by simply changing the handle.

** "DROVER'S" gas fired brands are constantly heated by a gas jet positioned behind the brand head. The flame fans back, away from the animal, to avoid scorching or singeing the hide. A needle valve on the handle gives the user complete control over the temperature of the brand at all times. If you have more than one brand, additional heads can be fitted to the gas handle.

** "DROVER'S" freeze brands contain approximately 85% copper which ensures excellent thermal capacity combined with high strength and corrosion resistance.

HOT BOX

"DROVER'S HOT BOX" Brand Furnace Refractory lined.
